6 f11 ~~Acoma~~
Enchanted mesa, north.
7 " " from south

Acoma has had an interesting history, but our Indian guide, a N.S. girl, seemed to know nothing about it. She began each description, "So you can see..." Items were all "over 100 yrs old." Some must have been much older, for the church was built in 16??. They charged us 1.50 each to walk through the village, + would have charged us 1.50 for taking pictures. They wanted \$15⁰⁰ for watching.

We stopped at Grants, nearly Milan,
for the night.

Mar. 11. We left at 9 A.M.

Ballup 55901 2.1 gals

3 pictures of Window Rock 2 at f11 1/50

14 Painted house with fluted.

15 " " with me.

some numbers in margin had been moved.

We gained another hour entering Ariz.,
so we went on to Flagstaff. Month 13⁰⁰
Before Flagstaff we turned off to check to see.
Rather interesting - minerals produced by
the shock, found only where meteors hit
hard enough, help study of craters on the
moon. Apparently said mineral never
is found except by meteor action. Thus
the moon craters would be volcanic or
meteor craters by mineral found or not.

This evening meal was the first I really
enjoyed all this week. Baked ham.

TV reported that Fisker had just won
game 13 (?)

The ranger guessed we were over 62,
+ not only admitted us without the dollar fee
+ gave us a free pass to all national
monuments.

Sat 12.

Flagstaff 56165 12 gals. full

Saw Northern Ariz. Museum. 2 m. N of Flagstaff.
Then left for Sedona.

2 pictures above Oak Creek Canyon.

Camping grounds below switchbacks jammed.

Stopped at a wide spot in road, under a tree,
creek just below us. As we got

nearer Sedona the canyon crowded
with teen agers - whole busloads.

Sedona was pretty well jammed.

So we went to Cottonwood + took a

motor. Then a visit to Tuzigoot
where we ~~was~~ met a Frenchman, his
wife + sister. They had flown to
Calif. were driving back. Then

we went to Jerome + visited the
mineral museum. The mines took

out 1/2 billion dollars of copper, silver,
+ gold — and the profit was 10% -
90% expenses. Returning we ate

snapper in Blacksville. Not too bad.

Sunday 13.

We stayed in our room until nearly 10 A.M. (local time = noon Ind'ns) + then crossed the street to the Pentecostal Revival Center. It was a two hour service. Two guitars furnished the music for a half a dozen songs. There were about six in the congregation plus ourselves. Some prayers or exclamations - repetition of phrases, many times just the same ones. The minister interrupted now and then with some remark. Then came the more particular petitions. There the minister prayed, though with some help. One child was sick + they put oil on a handkerchief + prayed. The minister's wife would take it to the child + cure it. Several reports of healing. The sermon was on Jn 7: 31 ff

The minister would read a verse, give several irrelevant illustrations, chiefly on Christian morality - and it was not at all bad. He must have preached 45 min., using mainly his experiences in the construction business - obviously he received no salary from the congregation. No offering was taken. I spoke to him at the end & he said the people left their gifts on the Bible. Which I did. Earlier he asked the visitors for a testimony & I gave part of the disc sermon. On the whole the service was better than I expected - only too long 10 AM to noon.

We then drove toward Phoenix - 45 min. before finding a restaurant. We passed the development advertised in Ind'pls. It would be better & cheaper to build in Cottonwood - but both places are pretty bleak.

After lunch we drove through Phoenix & east to Apache Junction. If there were no motels there we could drive ten miles back again - plenty of motels in Mesa. At the junction there is a luxury motel. In winter their prices must be high. Their dinners now are 3⁰⁰ + up. But a second floor motel room, no TV, was now \$9⁰⁰. And it was a lovely room.

At six I took a picture of a cactus + 2 of the superstitions.

1, 2, 3.

Some ocotilla stalks are actually light tan, with a slight tinge of green, and a stripe of darker - but not too dark - brown. The leaves surround the stem from very low to top.

Lovelock Pass on 6 is now replaced
by a long tunnel on I70

Two pictures of peak near Dillon
From Glenwood Springs to near Co. J. The
terrain is relatively flat & monotonous.

Stopped at Green River: [State Park, 100 feet]
Green River is placid here. a syp, only a few
acres.

Friday Aug 10

Left Green River c. 8:15

Sign on I 70 "No services for next 107 miles"

On road to Hanksville we saw 2 adjacent buttes -
They looked about 5 miles, maybe 6 or 7, ahead.

By speedometer reading they were 13. (near Goblin valley)

The burnt sienna base became light, very light
raw sienna, & even slightly green in top layers.

From I 70 down is relatively flat. The valley
is green with clumps, some bluish green, but
open pea green. A few patches of bare red sand,
sculptured by the wind into tiny ridges. The sky
was flecked with white clouds. Fairly dark
purple at zenith, to very light cerulean or greenish
blue at horizon. No green above 30° above horizon -
light pure ultramarine

We arrived in Capitol Reef c. 10:30. After
visiting the Ranger Station, with 7 min. film, we
went to Frank Wash & Capitol Gorge. The dirt
road was very dusty. Capitol Gorge is a
wash that has cliffs 50 ft or so at the narrows.
We ate lunch under a nice roof & nicely laid

stone walls, 2 ft high - no tables or water -

After lunch we took a room for 2 nights.

Then we started up the trail to Hickman Natural Bridge.

Exactly one mile from road. It took us exactly one hour: up the face of a cliff in sharp steep switch backs, then up the side of the mt., fairly steep at times, & even down again, over rough stones & soft fine sand for sketches. We met about 6 other hikers going & coming.

Our return trip took less than 40 minutes.

Ate supper at our motel. I had a 3.50 dinner, coffee 25^c extra.

Sat Aug 11th

Escher artist - drawings, perspective scenes, intricate perspective

Mix cadmium orange + cobalt violet, all shades of western rocks

In the morning the Ranger conducted a tour for the tourists. just us two. We climbed around up to top of cliff to see Chimney Rock from above. The climb was steep, but perhaps not so arduous as Hickman Bridge. Usually the tourists make a small circle on top. But when we got to the high point we came down again. It was a little over a mile up. I took pictures of some dead trees, a wash we climbed through. The ranger pointed out the general geological formation for 20 miles around.

Keith Harrison
Professor of Botany
in a college in Ogden
with c. 5000 students.

Lunch in picnic park - well watered grass, fine trees. I lay down while Ruth went 15 m to Bicknell for gas & groceries - she got the gas! The groceries were minimal. Afterward we took the very short trip to view the footnecks of Sulphur Creek - runs into Fremont river. The gorge is tremendous, winding for miles. Then we came back

to the picnic park & I sketched a little. Then
supper.

After supper, sitting in front of
our room, the back of the motel, by Sulphur Creek,
we saw two small mule deer. Birds seem scarce.

Sunday we rested - I was tired enough. Wrote
to Schulzes & Harry Kerr. Took a nap. Sat.

Mon. 13.

another deer before breakfast

Left Capitol Reef 22853

9:20 A.M.

We drive straight (around) to moat & took a motel
about noon. Ate in room. Went to Arches. Got
a 1973 pass to all Natl Parks. Drove to Window
Section, climbed to North Window, from which
I drew ~~the~~ Turret Arch. Climbed for
a view of the Helicite Arch. Then to end of road
& back to Visitors Center. Ate in same restaurant
as last time - same motel too.

*
↓

* The temperature at The Visitor's Center was 107°
but I sat in the shade of the bridge & there was a
breeze while I drew.

Tues. 14

Left Ruthie in room and drove to Balanced Rock -
drew for about an hour + cloudy + comfortable.
After brunch we drove 16 m up the Colareso
gorge on route 128. More desert varnish than
elsewhere. Went into Arches again. Then to
Dead Horse Point: it was not so scary four
years ago when we looked up at it as it is
looking down 2000 ft to the Colorado River

Wed. 15.

Lv. Moab 23209 c 9.10

[gas was 36⁹¢ self serve
The motel in Capitol Reef had 46⁹ - but
Ruth drove to Bicknell - cheaper

Ate lunch in city park at Delta

We ate supper at camp ground near
Proquillas + on way out saw 2
large road runners. + another
+ several more

Wed.

9:45 2 pictures near or in Basin
9, 10.

Drew sketches on Nugent Mt 8783 ft
chair collapsed + I fell into a
fur crotch - not bad.

Also saw a curious jack rabbit
i.e. he was curious about us, but
when I offered him a bit to eat
he hopped off

Thursday 9 miles to The Window.

As we left the trail head at 8:20 A.M., we saw three deer.

After a mile descent we were only at the camp ground.

From there to the window there were two benches. We

arrived at the window 10:45 & stayed till 11:15

We saw an iguana (?) c. 10 in long, heavy shoulders,
& body ending in pointed tail. Also a large grasshopper,

2, 2 1/2 in long, wings thato green & bright yellow
markings at shoulder. On the wet rocks Rustie

slipped & wrenched her knee. We ate on lower

bench 11:45-12:05. Sat 10 min on half way

bench. It was getting harder for RV to walk.

We did not go back to cabins, but to camp ground,

saving 3/4 mile. 1:15 P.M. Then I climbed

back to cabins ^{1:45} & brought the car down.

Rest park 10 mi. west of Shamrock, not on map.

(Had "tea" at Shamrock at gas station camp. (35 mi))

Rest park 18 mi E. of Amarillo (east of Terrell off)

Both of these have shelters & toilets.

881 Vega Texas for night.

Friday - June 7th.

Left Ziga 7:15 A.M. V. good night in
small motel. Seems clear, is chilly.

Tucumcari 399~~9~~59 13.4
gas = 57¢

nice rest park betw Tuc. & St Rosa
[just E of NM 129] [c. 27 m E of St. Rosa]
a few minutes later our odometer
changed from 39999.9 to 40000.0

OKy
color

clear sunny day. Zenith = * aqua + col. violet
> lower third, quite light *crimson*
* tiny bit of vermilion.

Old Town at noon our time = 11:00

In art store 3 black birds on 2 wires
+ a third fly in background
at first no background or foreground.

Several small pictures: 4x6 6x8, 3x3

Three yuccas, faint mts. Monument Valley.

Tiny owl [very small]

at Albuquerque 40150 12.1 gals

Saturday, June 8, 1974

Left Albuquerque 7:30 A.M. - This time (?)

Took side road thru Balcon:

At foot of mt, where I have some pink haze, 1 mt. S. of Balcon has sandy color haze, & it extends farther up & mt. ^(?) A dislodged adobe house can decorate foreground. || A rest park c 20 m

N of Socorro, & it was too windy & cold to ride out

Saw a road runner - long tail, horizontal.

Stopped at Elephant Butte State Park for lunch. Stayed 1 1/2 hr. Drew, charcoal, & lake. + a small bush in pencil.

band

Dona Ana Motel 40392 14.8 gals

Sunday

Attended Las C. ch. A.M.

Dinner w/ Oscar Black + Ells.

Preached 7 P.M.

Mon June 10

Left "Lona Aua" 7:40 A.M. Nice, sunny.

In Juarez we bought 2 hand bags, 1 belt,
5 picture frames. We in Duby's. Left

El Paso 1:45 hrs. time = 12:45 local.

Deming 2:45 ^{hrs} P.M. Hot - 97°

40.563 self-srv. 48.2 9.8 gal.

RV drive from El Paso to Deming. Got
a motel about 3 P.M. Drove 30 m N. to
City of Rocks. Lava formations. Returned
to motel.

Tuesday, June 11

Good night. Left 7:55 - westward.
We crossed the Continental Divide E. of
Lordsburg. If there had been any water
it would not have flowed in either direction.
We turned off I 10 on 80 W. of Lordsburg
at Roadforks. On the left was a place
called Shady Rest. There may have been
shade inside. Route 80 seems to have been
last constructed about 1940. And there is 80
miles of it to Douglas. Every 20 or 30 there
are dips, to let the arroyos cross the
road. It is not likely we shall be washed
off: there has been less than $\frac{1}{10}$ inch rain
in the last six months. When we
crossed into Ariz. at Rodeo, 80 became
a fairly nicely paved road. There are
low mountains on both sides of the road,
but the valley, about 5 m. wide is
flat desert. About 40 m N. of Douglas
is a stone marker at spot of Geronimo's
surrender.

over

Ar. 10:30 Local time (11:30 our time) A.M. Douglas, Ariz.

Lunch & walk over Agua Prieta.

Left - 12:15 (here) w/ gasolene -

SW of Bisbee to Coronado Monument.

Mwalezuma Pass 6575 ft. Views to E
& S. Border indistinguishable on plain.
see postcard. gravel road to Pass.

Then to Tombstone. Courthouse museum.

Coral - scene of gun battles.

Quiet town (now)

We expect to stop at the famous cemetery
on the way out.

We have pretty much adjusted to local time.

Wed A.M. we wake at 6 A.M. = 8 A.M.

maps time.

Wed. June 12.

Left Tombstone, stopped at Boot Hill. Then
drove to ~~the~~ Colossal Cave. Did not
go through. On to Saguaro. Stayed 2 or 3
hrs. Arew. Came to Moon's Hotel.
Went to Univ. Art Museum. Also in Panaca House.
Returned to motel 6 P.M. local time.

Tucson Thurs. 13

14.6 gals

Great disappointment! Sabino was closed
to all visitors. We went up the Lumber.
Then took a Kitchenerette on Benson Hwy.

Fri. 14

Took Picketts to Desert Museum
Visited Marge Rand.

go. Way - Tucson Saturday, June 15

41184

To Kitt Peak

13.3 gal.

109° noon

In picnic area the mt blue jays came
on our table for crackers. A squirrel
begged at my feet & took crackers from
my hand. Also took a long drink of
water from the lid of our thermos.
Ground squirrel in Saguaro etc
crackers, but would not drink.

Sunday 16
Preached in Tucson for Pickett.

Mon. 17 7:30
41309 Leave Tucson 8.2 gals

Pinal Parkway
Tom Mix monument - horse

Drove into Pinalta Canyon on
dirt road to Dons' base camp
c. 7.5 miles. Hard on tires & springs.

Forest fire at Tortilla Flats + 2 other fires
300 men fighting them
Queens Canyon at Superior
closed to visitors.

Arboretum in even better condition
than before.

Apache Trail Rd - closed.

1982

Passing Queen's Canyon we saw a dozen
or more agaves in bloom.

Temperature 112°

2:30 at Globe no hat.
